

# Luis Adame Rodríguez

Seville, Spain - +34681315606 - [mrluissan@gmail.com](mailto:mrluissan@gmail.com) - [luisadame.ninja](http://luisadame.ninja)

## Experience

**Web Developer - MKD Automotive.** Remote, 9/11/18 - 10/30/18.

Created a multi-language data management web application that also served as a dashboard for an automotive solutions company. It was built with **Laravel**, **Vue.js**, **Vuex**, **JWT**, **MySQL**, **MongoDB**, and **Bootstrap**. Following a **TDD** approach.

**Creator - universoparkour.org.** Remote, 10/01/16 - 09/05/18

Created a website which helped them increase substantially their number of customers and the communication between them. It was built with **Laravel**, **JavaScript**, **Sass**, **PostgreSQL**, **Redis**, **AWS S3**, and some parts with **Vue.js**. Following a **TDD** approach.

**Creator - domicolor.rocks**

Built a web application to extract dominant colors from an image.

## Education

**Bachelor** of Science and Technology.

Currently coursing the second year of a **Higher Education** Certificate on Web Application Development.

## Technical skills

Languages: PHP, JavaScript, SQL, Python, Java, and Go (less experienced).

Frameworks: Laravel, Vue.js, React.js, Express, and Flask.

DevOps: Docker, Kubernetes (less experienced), and AWS S3, Cloudfront, Linux.

Tools: Git, Webpack, Parcel, Phpunit, Laravel Dusk, Junit, Jest, Puppeteer.

Web: HTML, CSS3, and building progressive web apps with offline capabilities.

## Events

Participated in a hackathon of **blockchain** being the first in finishing the problem given. A smart contract had to be built using the hyperledger framework in order to make a geolocation package delivery system.

## Languages

Spanish (native), English (C1 level certified by Cambridge).
